

AZ Peace Trail

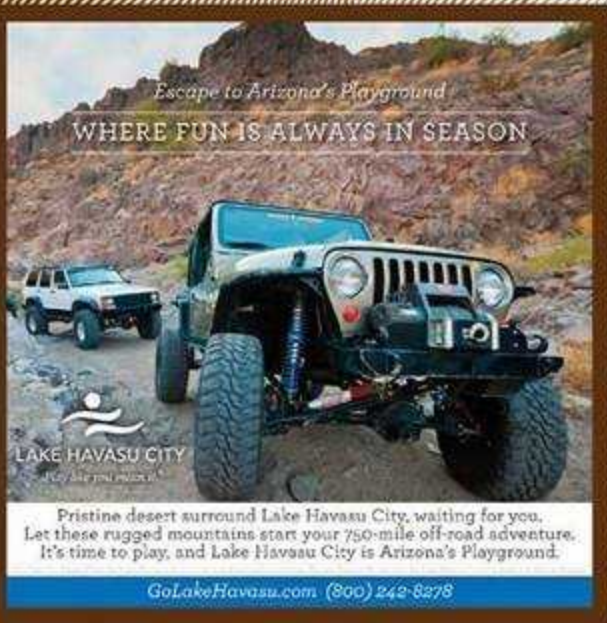

www.ArizonaPeaceTrail.org

The Arizona Peace Trail (AZPT) is the ultimate off-road adventure for dirt bikes, ATV/UTV & Jeep/4-wheeler enthusiasts!! This 750-mile loop trail spans three counties (La Paz, Yuma & Mohave) in western Arizona and traverses from Bullhead City & Kingman to the north down through the desert to Yuma. From the trees through the Hualapai Mountains - to the expansive desert and along the Colorado River, the Peace Trail provides a natural experience. Off Highway Vehicle clubs and local, county, state & federal agencies have come together to create this journey. Riders from across the nation are waiting for this off-road experience. Come explore and experience Western Arizona by means of a multi-day trek through thousands of miles of desert trails under open skies, while seeing the communities along the way that have helped make this trail possible. It's a loop trail, so pick where you wish to start, and how fast you ride, how many times you stop and take a picture of some unique items or vistas along the trail, will dictate how long it will take to finish. There are hotels and restaurants for those who wish; or for the truly outdoor enthusiast, there are countless places to spend the night roughing it. This is your outdoor adventure.

QUALITY INN & SUITES

PLANNING YOUR OFF-ROAD GREAT DESERT ADVENTURE.
We strongly urge that you download our GPX tracks from our website www.ArizonaPeaceTrail.org to use with a standalone GPS instead of a cellphone. The website also contains some short cuts, waypoints, fuel stops, hotels and attractions. Unfortunately, it is not possible to have a detailed map of the entire loop available for print.

It is also highly recommended that each trip have multiple vehicles to allow for options in cases of emergencies. Often there is no cell service through these scenic, remote areas of western Arizona. Bring extra water, snacks, and fuel, along with layered clothes, rain gear, sunscreen and first aid kit. Prior to the trip, vehicles should be thoroughly inspected by a third party to insure EVERYTHING is in proper working condition. Riders should bring items to repair flat tires: a patch kit and a spare tire and working jack, and know how to properly repair your tire. Additionally, riders should bring a few spare parts including belt and know how to replace it.

Many out of town riders have decided to extend their experience by exploring each area and community in depth by a day or two in each city. Example: To do more exploration of an area, you could spend 2-nights or 3 in many areas and then proceed to next area along the route. Do not forget to add your day of travel too. You could easily extend your adventure from 5/7 day and make this a 2 or 3-week adventure. Many have visited our area and enjoyed the desert so much, that they purchased or now rent a winter home here. During the first weekend in January the trails to and thru Planet Ranch are CLOSED, an alternative route is through "Pipeline Crossing" (see our GPS tracks). Also, during the first weekend in February, most trails in North La Paz County are closed, due to an annual desert off-road race. In the winter, the AZPT trail thru the Hualapai Mountains in Kingman may have snow to make this section impassable; Two alternative routes are identified on our GPS track file & website. In the event of heavy rain, crossing at Alamo Lake may be impassable. Please check our website for passable status or contact Wayside Café & RV Park for info and our GPS tracks have shown an alternative.

We would like to thank all the different agencies for their support.
